**March – mid-April 2010: Burunge New Testament portions** (Tanzania).

**Mid-April – mid-June 2010:** Typeset the **Catholic version** of the **Konkomba Bible** (Ghana).

*Please note that our planned trip to Kenya to typeset the **Rendille New Testament** has been postponed, as the translation will not be completed by then. The team hope to be ready by mid-2011.*

**June–July 2010:** May possibly include a trip to the States for ‘**recurrency training**’ in newer versions of our typesetting software, as well as other technical advances in recent years.

**August–December 2010:** Planning for this period is not yet finalised. ***Watch this space!***
